

Reliability: Information Technology (IT)

IT: Ensure that information stays secure with certified and ever-evolving solutions

The risks related to information security keep growing
This is why Notarius' solutions always meet the highest industry standards

Information security: ISO 27001

In 2007, Notarius was the first organization certified ISO 27001 in North America

Quality management: ISO 9001

Our teams ensure that all products are the highest quality possible and we continually work to improve them

Hosted in Canada

Our infrastructure is fully networked in Canada to the best industry standards

Yearly external audits

We get reviewed every year for access control, systems administration, contingency plans and penetration tests

✓ **ConsignO Cloud : A trusted SaaS solution**

Our electronic signature platform is constantly updated to meet the continually changing needs of organizations with high security requirements

- ➔ No software to install and both internal and external subscribers sign for free
- ➔ Any document uploaded to the platform is encrypted and is only accessible to the defined participants
- ➔ Data is encrypted (AES-256-CBC) at rest and in transit (SSL/TLS)
- ➔ 99.5% service warranties available: ConsignO Cloud has a high-availability architecture
- ➔ API integration, SSO integration, administration console and white-labeled interface
- ➔ Authentication by the IdP of internal signatories possible for a seamless signature experience

✓ **Benefit from free trainings and bilingual service**

Online and telephone resources are available to provide day-to-day support and answer technical questions

The world is going digital.
Be digitally reliable.
