

Notarius Optimizes Engineering Productivity

Our digital signature solutions are transforming professional practices. [#DigitalTransformation](#)

ENGINEERS

30,000+ engineers use their digital signature at every step in the process

From coast to coast

CertifiO's digital signature is an industry-recognized standard

The CertifiO digital signature exceeds the requirements for the authentication of engineering documents in the United States.

Practise in other provinces

12 out of 12

Canadian engineering associations issue CertifiO digital signatures

Our signature solutions meet the requirements of all jurisdictions.

Stay flexible

Available

24/7

Sign from **anywhere** in the world, **any time of day**. Don't let a signature prevent a project from moving forward.

Be ready for future challenges

Authenticate models

3D and BIM

With **ConsignO Desktop** authenticate **any type of production data**, no matter the format.

Join other professions

Used by nearly

50 associations

Used by architects and approved by major firms, the CertifiO digital signature integrates with a range of projects.

Ensure the reliability of your documents

100% verifiable

A CertifiO digital signature **protects your original document**. All future alterations are detected.

Take full control over your digital identity

Always under your control

When issued by your association, the CertifiO signature confirms your professional affiliation and you are the **only person who can use it**.

Take advantage of the opportunity to go fully digital

2 to 6 months
for companies

With more than **25 years of experience** and our support services, firms **transition to digital faster**.

Savings between
83% and 86%

The status quo is more expensive than making the digital transition which, in its totality, **significantly increases team productivity**.
