

# Notarius Optimizes Engineering Productivity

Our digital signature solutions are transforming professional practices. #DigitalTransformation

ENGINEERS

30,000+ engineers use their digital signature at every step in the process

## An Industry-Recognized Standard

CertifiO digital signatures have supported engineers and EAC since 2005.

Practiced in the Continental United States

Accepted in

**49** states\*

The CertifiO digital signature **exceeds national requirements** for the authentication of engineering documents.

\*Excluding Hawaii

Stay flexible

Available

**24/7**

Sign from **anywhere** in the world, **any time of day**. Don't let a signature prevent a project from moving forward.

Be ready for future challenges

Authenticate models

**3D** and **BIM**

With **ConsignO Desktop**, authenticate **any type of production data**, no matter the format.

Join other professions

Used by nearly

**50** associations

Used by architects and approved by major firms, the CertifiO digital signature integrates with a wide range of projects.

Ensure the reliability of your documents

**100%** verifiable

A CertifiO digital signature **protects your original document**. All future alterations are detected.

Take full control over your digital identity

**Always**

under your control

When issued by your association, the CertifiO signature confirms your professional affiliation and you are the **only person who can use it**.

# Take advantage of the opportunity to go fully digital

**2 to 6 months**  
for companies

With more than **25 years of experience** and our support services, firms **transition to digital faster**.

Savings between  
**83% and 86%**

The status quo is more expensive than making the digital transition which, in its totality, **significantly increases team productivity**.
