Organizations

The Trusted Digital Signature
that Allows you to Sign on your Organization's Behalf

Because not all signed documents require the same legal reliability, Notarius complements its electronic signature platform with a full suite of digital signature products adapted to the needs of professionals, organizations, governments, and municipalities ready to embrace digital transformation without compromising reliability.

CertifiO for Organizations was specially designed to certify your organization's identity and ensure the integrity and authenticity of PDF documents created using your systems and applications. All recipients – clients and suppliers alike – can trust that documents originated from your organization without being altered.

Digital Signatures with Uncompromised Legal Reliability

Too often, the transition to a paperless workflow is stalled by concerns about the legal validity of electronic documents. Often these concerns are justified as a simple PDF document can easily be altered. With CertifiO, your digital signature is as reliable, if not more, than your handwritten signature.

Got a high volume of documents to sign?

Combined with our API, **CertifiO for Organizations** is the perfect tool for organizations who want to automate their signature processes.

ORGANIZATION

An organization
offers an online service
requiring a form.

FORM

Once filled out, the form is automatically converted to **PDF/A** format, then signed digitally using **CertifiO for Organizations** to guarantee the document's integrity and ensure that your organization is the signer.

Thanks to the **ConsignO API**, the process is completely automated.

Signature

TRUSTED IDENTITY

CertifiO digital signatures are recognized by the Adobe Approved Trust List and are automatically recognized when a document is opened in Adobe Reader.

Certified
timestamp

RELIABILITY

Certified timestamps show the exact date and time that documents were signed, allowing you to verify the validity of the signature.

certifiO

Notarius, a leading certificate authority, issues the digital certificates necessary to sign electronic documents.

An Outstanding Guarantee of Identity, Integrity and Authenticity

IDENTITY

This includes the signing organization's identity, previously certified through a verification process.

INTEGRITY

A document's integrity is guaranteed when it is possible to verify that it has not been modified.

AUTHENTICITY

A document is deemed authentic when it incorporates proof of identity and its integrity has been preserved.

LONGEVITY

Document longevity ensures that the document can be opened, read, and authenticated for several decades by:

- Using **PDF/A**, an ISO standard for use in the archiving and long-term preservation of electronic documents (ISO 19005).

- Using **PAdES LTV** (ETSI TS 102 778), a standard enabling long-term validation of digital signatures, which makes it possible to confirm the signature's validity at the time of application regardless of the current state of the certificate (expired or revoked).

API

INTEGRATION

Thanks to our API, CertifiO easily integrates with your existing systems to automate high-volume document processing.

PRODUCTIVITY

Increase productivity by automating your signature processes.

Who is Notarius?

A leading expert in electronic signatures, digital signatures, and long-term document reliability since 1998, Notarius is the only Canadian firm that issues trusted signatures recognized by Adobe (Adobe Approved Trust List – AATL) and eIDAS (electronic IDentification Authentication and trust Services). Notarius is an environmentally responsible, certified carbon-neutral business that holds ISO 27001 and ISO 9001 certifications. In addition to our certifications, you get peace of mind from knowing your documents are admissible as evidence (not merely prima facie evidence) under Canadian law.

Our Expertise

Notarius has helped hundreds of organizations transition to digital technologies by helping professionals adopt 100% digital practices that comply with the requirements of their professional association. Thousands of professionals, executives, employees, clients, and partners use our products to sign millions of legally reliable documents every year. Notarius has a proven track record, developing solutions that meet the most stringent standards of security and confidentiality.

Environment

In addition to lowering document management costs and enhancing productivity, transitioning to digital signatures enables you to reduce paper use for a substantially smaller environmental footprint.

Notarius Products and Services

Notarius offers a full range of signature products and validation solutions.
