Signature

By default, trusted electronic signatures require **two-factor authentication** for added security.
(Example: Email + SMS).

« ConsignO Cloud's level of legal reliability brings us peace of mind.
Once a document is signed, we know for sure that we have the original
in our hands and that we won't get any unpleasant surprises. »

Maxime Dupuis, Assistant to the City Clerk, City of Bromont

Ensure you're compliant in record time

Meeting your legal requirements is quick and easy with ConsignO Cloud.
Take advantage of the best legal reliability mechanisms.

- Standalone, digitally signed audit log containing all the necessary proof for all participants.
- Documents protected by the platform's digital signature to ensure their integrity as soon as the project is created.
- Conforms to PAdES-LTV standards and certified time stamp included.
- Two-factor authentication for added reliability.
- Documents converted to PDF/A (archive format) by default.

Notarius is the official supplier for **more than 50 professional associations**.

Be protected in the event of a dispute

With Notarius' solutions, the signer's proof of identity is integrated into the document, and the documents are protected against counterfeiting and alterations.

- Policies
- Leases
- Agreements
- Purchase orders
- Medical documents
